

Neo Griot

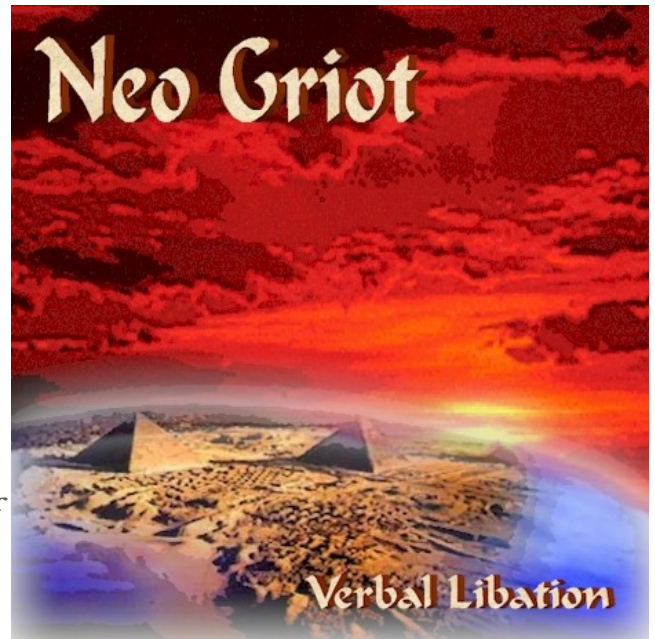

Verbal Libation

When Michigan's Underground Hip Hop scene is mentioned, inevitably Neo Griot is spoken of. As well, when Spoken Word poets converse, Neo Griot is at the heart of the discussion. This 12 member collective of diverse artists, balanced around a three-man hip hop squad, has come together to bring perhaps the most thought provoking album in recent years.

Neo Griot has performed throughout the Midwest region, energizing hip-hop heads and commandeering poetry slams and cafés at will.

The latest endeavor, Verbal Libation, invalidates divisions between hip-hop and poetry, contemporary and classic musical arrangements, reality-rap and conscious hip hop, combining the styles in a seemingly destined union.

Verbal Libation could effortlessly etch out the blueprint of a new musical genre.
